Connect and Product Download Hub (PDH) – What are the Key Differences?

V1.0

April 2022

© 2022 Arm

Moving from Connect to PDH for IP Downloads

- + IP downloads from Connect are also now available from Product Download Hub (PDH)
- + PDH replaces Connect, and so in July 2022 Connect will be switched off
 - Fee-based physical IP is available in Athena (DesignStart Beta), not PDH
- + The following slides show a few key differences between the two systems along with some key features of PDH
- + Please start using PDH now for your IP download, don't wait for Connect to be unavailable before doing so
- + Please provide feedback on your PDH download experience either to your Account Manager, PPM or FAE or via email to ipdtcomms@arm.com

How your IP appears in the two systems

Connect

PDH – Some Key Features

PDH includes all products. Only shows products you are entitled to download by default (must be logged in)

Search filters (as opposed to folders in Connect)

Optional queue function for multiple downloads

PDH - View Entitled IP on Specific Contracts

Filter by contract

The screenshot displays the PDH Product Search interface. The top navigation bar includes links for Home, Product Search (active), Recently Viewed, and a Download queue. Below the navigation bar, there's a search section with a 'Refine your search' button, a 'Reset' button, and a search input field labeled 'Search by product name, product code or contract number'. A checkbox labeled 'Only show products I have access to' is checked. A 'My Products' tag is visible. On the left, a filter sidebar shows 'Programme' set to 'All Products'. The 'Contract' filter is expanded, showing a dropdown menu with 'PDH-TEST' selected. Other filters like 'Product Line', 'Family', and 'Application' are set to 'All'. The main content area lists search results for 'ARM Routing Tech Kit', showing details like 'DesignStart', 'Physical IP', 'Foundry', 'Process', 'Geometry', and 'Product'. Each result includes a file size, a contract number, a date, and an 'Add to queue' button.

Contract	Product Line	Family	Application
PDH-TEST	All	All	All

Product Name	File Size	Contract Number	Date	Action
ARM Routing Tech Kit	829.4 MB	r1p0-02eac0	March 30, 2021	+ Add to queue
